# National award for Jacki Nylen

Minnedosa's Jacki Nylen has been honoured with a Physical Education Teaching Excellence Award from the Canadian Association for Health, Physical Education, Recreation, and Dance (CAHPERD).

Jacki is one of nine recipients of this year's national award.

The award recognizes some of Canada's finest teachers and physical education champions who serve as positive role models and are involved with the development of physical education programming for students.

For over 30 years Jacki has been inspiring students and teaching Physical Education at Tanner's Crossing School.

As a teacher, she ensures that each and every student experiences a daily dose of quality physical activity. Jacki's dedication extends far beyond the school and far into the community where she supports community sports through her various roles as coach, referee, and athlete. Jacki is an executive member of numerous sport organizations, including the Manitoba Physical Education Teacher's Association. Her involvement in such organizations allow her to share her expertise with others and promote physical activity beyond her home community and throughout Manitoba.

Winners of this prestigious national award receive much more than a handsome recognition plaque. All national award recipients also receive free travel, accommodation, and registration at the CAHPERD national conference, and a \$500 gift certificate to purchase WINTERGREEN Phys-Ed products.

Congratulations Jacki on your national award! You are most deserving of this honour!
